

Accessibility statements trend

The accessibility statements trend shows the trend of accessibility statement publications by Public Administrations (PAs) for their websites over the years. The increasing number of statements highlights the commitment to making information accessible to everyone without discrimination.

Monitoring period: 2020 - 2023

Year	Statements
2020	8,741
2021	10,264
2022	12,052
2023	15,406
