

Accessibility statements trend

The table illustrates the trend in the number of accessibility statements published by PAs for their websites, from 2020 to today.

By analyzing the increase in the number of statements published each year, it is possible to draw important information on the efforts undertaken by PAs to ensure the digital accessibility of their services.

Monitoring period: year 2024

Latest data update: 23 September 2024

| Year | Statements |
|------|------------|
| 2020 | 8,741 |
| 2021 | 10,264 |
| 2022 | 12,052 |
| 2023 | 15,406 |
| 2024 | 16,521 |
