

Distribution of accessibility statements published by sector

The table depicts the number of accessibility statements released by three different types of entities: municipalities and their consortia and associations, state educational institutions of all levels, and other categories of public entities. By analyzing the variations in the number of statements published by September 23 of each year, valuable insights can be gleaned about the efforts made to ensure digital accessibility in their services.

Monitoring period: 2020 - 2023

Institution	Published statements
State Educational Institutions of All Levels	6,696
Municipalities and their Consortia and Associations	4,960
Other Types of Organizations	3,750

Last data update: 2023-09-23
