

Accessibility statements trend

The table illustrates the trend in the number of accessibility statements published over the years by PAs for their websites and apps.

By analyzing the variations in the number of declarations published by September 23rd of each year, it is possible to draw important information on the efforts undertaken by PAs to ensure the digital accessibility of their services.

Monitoring period: year 2024

Latest data update: 23 September 2024

Year	Website statements	App statements
2020	8,741	13
2021	10,264	631
2022	12,052	611
2023	15,406	714
2024	16,521	728
