

# Accessibility objectives trend

The accessibility objectives trend shows the trend of publications of objectives by public administrations for their websites and mobile applications over the years. The increasing rise in objectives highlights the commitment to making information accessible to everyone without discrimination.

Monitoring period: 2016 - 2024

Year	Accessibility objectives published
2016	3,287
2017	4,879
2018	5,687
2019	6,002
2020	7,151
2021	9,005
2022	9,806
2023	11,573
2024	11,784
