

Accessibility statements trend

The trend of accessibility statements reflects the trend in the publication of accessibility statements by Public Administrations (PAs) for their mobile applications over the years. The increasing number of statements highlights the commitment to making information accessible to everyone without discrimination.

Monitoring period: 2020 - 2023

Year	Statements
2020	13
2021	631
2022	611
2023	714
