

Self-assessment of compliance status of thematic websites of PAs

The table shows the three possible outcomes of the self-assessment contained in the accessibility statement and the number of thematic websites for each outcome.

A website is declared "compliant" if no accessibility errors have been detected, i.e. if the satisfied checkpoints are equal to 100%; it is declared "partially compliant" if the satisfied checkpoints are greater than 50%, but less than 100%; it is declared "non-compliant" if the satisfied checkpoints are less than 50%.

Monitoring period: year 2024

Latest data update: 23 September 2024

Compliance status	Websites
Partially-compliant	3,169
Compliant	2,436
Non-compliant	63
