

Accessibility statements trend

The trend of accessibility statements reflects the trend in the publication of accessibility statements by Public Administrations (PAs) for their websites and apps over the years. The increasing number of statements highlights the commitment to making information accessible to everyone without discrimination.

Monitoring period: 2020 - 2023

Year	Web statements	App statements
2020	8,741	13
2021	10,264	631
2022	12,052	611
2023	15,406	714
