

Self-assessment of compliance status of institutional websites of PAs

The graph shows the three possible outcomes of the self-assessment contained in the accessibility statement and the number of institutional websites for each outcome.

A website is declared "compliant" if no accessibility errors have been detected, i.e. if the satisfied checkpoints are equal to 100%; it is declared "partially compliant" if the satisfied checkpoints are greater than 50%, but less than 100%; it is declared "non-compliant" if the satisfied checkpoints are less than 50%.

Monitoring period: year 2025

Latest data update: 23 September 2025

Compliance status	Websites
Partially-compliant	5,855
Compliant	5,854
Non-compliant	28
