

## Distribution of websites monitored by geographic area

The table shows the distribution by geographical area of the manually monitored PA websites.

The geographical areas taken into consideration are five: North-West, North-East, Center, South, Islands. They correspond to the areas identified by the Nomenclature of Territorial Units for Statistics of Italy (NUTS), used for statistical purposes also at the European Union level (Eurostat).

Monitoring period: year 2024

Latest data update: 31 December 2024

| Geographic area | Monitored websites |
|-----------------|--------------------|
| North-west      | 29                 |
| North-east      | 24                 |
| Center          | 29                 |
| South           | 26                 |
| Islands         | 11                 |
